EXPLORE ANOTHER WORLD

ANTARCTICA 2021-2023

It's out there, waiting for you. The voyage of a lifetime. The last continent. Each time you hear the word *Antarctica* you feel its pull. You can almost smell the crisp cold air, hear the crunch of millennial snow under your feet, see the edge of a humpback whale's tail as it disappears into crystal waters. But once you set foot on Antarctica you'll feel something you never imagined existed: a new sense of belonging - to nature, to the family of explorers who've come before you, to our beautiful, delicate planet.

“Antarctica will redefine what beauty means to you. The sheer majesty of the endless landscapes and your personal encounters with strange and unique wildlife will change you forever.”

BARBARA MUCKERMANN, CMO SILVERSEA CRUISES

“A world unto itself, Antarctica awaits discovery as a pristine wilderness of inimitable beauty. Silversea takes travellers deep into the Final Continent in unparalleled comfort, unlocking the richest Antarctica experience ever.”

CONRAD COMBRINK, SVP EXPEDITIONS, TURNAROUND OPERATIONS AND DESTINATION MANAGEMENT

“Standing at the edge of a vast ice shelf, all you hear is complete and utter silence. It’s so quiet you can hear the ice breathe in time with your heartbeat.”

YOUR ANTARCTICA STARTS HERE

As the sun comes up over the Antarctic Sound, blood red gives way to sky blue, and colonies of Adélie Penguins slowly shake themselves awake. The ice creaks and shifts underneath as Weddell seals roll around in pure white blankets of virgin snow. Venture a bit further inland and you'll find Antarctica isn't just cold and ice. Jagged grey mountains watch over fjords teeming with wildlife and species you'll encounter nowhere else. Silversea welcomes you to Antarctica, the last and most unexplored continent on Earth. With lots of options, including our newest Antarctica Bridge packages, where you start your voyage directly on the South Shetland Islands, you'll find the right one for you.

In Antarctica, no two cruises are alike, and you'll discover a changing untamed wilderness wherever you go. You'll be moved by intimate encounters with wildlife while the sheer majesty of the landscape makes you feel like you're traveling for the very first time. Our Silversea Expeditions team members will guide you every step of the way, as we take the utmost care when traveling to this remote region, with clothes, equipment and procedures that ensure our impact on Antarctica's delicate ecosystem is minimal to none. In fact, here you'll discover that you will redefine what it means to explore, as you become one of the few people in history to set foot on the last continent.

ALWAYS MORE TO EXPLORE

Antarctica in numbers

17 **TERRESTRIAL FAUNA SPECIES**

BIRDS: Wandering Albatross, Snow Petrel, Antarctic Skua, Blue-eyed Shag, Giant Petrel, Cape Petrel, Snowy Sheathbill, Antarctica Tern
PENGUINS: King Penguins (South Georgia voyages only), Adélie Penguins, Chinstrap Penguins, Gentoo Penguins

0°/15° **SUMMER TEMPERATURES**
Celsius (32/ 59° Fahrenheit)

The Antarctic is colder than the Arctic because Antarctica is a landmass: receives less heat from the ocean.

235 **MARINE FAUNA SPECIES**

Six pinniped species inhabit Antarctica. The largest, the elephant seal, and the Antarctic fur seal live north of the sea ice. The other four species can live on the sea ice - Crabeater seals, Weddell seals, leopard seals and Ross seals. There are 10 cetacean species; six baleen whales, and four toothed whales and Orcas.

950 **FLORA SPECIES**

Bryophytes like mosses and liverworts, as well as lichen, algae and fungi varieties grow in Antarctica. Most growth lasts just a few weeks during the height of summer. There are 200 species of lichens and 50 species of moss in Antarctica, while algae are in abundance with 700 species of mostly phytoplankton.

ICE SHEETS
98% **OF ANTARCTICA'S SURFACE**

About 98% thick continental ice sheet and 2% barren rock. The ice surface dramatically grows in size from about 3 million square kilometres (1.2 million square miles) at the end of summer to about 19 million square kilometres (7.3 million square miles) by winter.

ICE THICKNESS
2.16 km

The mean thickness of the Antarctic ice sheet is 2.16 km; the maximum known thickness of the ice sheet is 4776 m (Terre Adélie). Without the ice, Antarctica may be the lowest lying continent; the greatest known depression of bedrock is the Byrd Subglacial Basin, at 2538 m below sea level.

1773 **FIRST SERIOUS ATTEMPT AT EXPLORATION**

In 1773 James Cook and his crew crossed the Antarctic Circle for the first time. They discovered South Georgia in 1775, but although Cook surmised a frozen continent further south they did not catch sight of Antarctica itself.

1,000 **POPULATION**

There are numerous research stations set up across the continent.
Summer: 4,400 people reside
Winter: 1,000 people

YOUR EXPEDITIONS TEAM

Experienced in delivering experiences

IN ANTARCTICA, EXPERTS MAKE THE EXPEDITION

We've assembled a top-notch team of naturalists and other experts to help you discover and explore Antarctica's hidden secrets. Silversea Expeditions has one of the highest expedition-personnel-to-guest ratios in the entire expedition cruising industry, meaning every single voyage features from 14 to 28 qualified specialists ready to make your adventure that much more special. All excursions and experiences with our Expeditions Team members are included, so feel free to attend as many of our daily "Recap & Briefing" and lectures as you like. These uniquely experienced and talented experts have all been chosen for their passion and dedication to their specialised field, as well as their openness, friendliness, and infectious enthusiasm.

Selected specifically for your destination, our team features a variety of experts, including biologists, ornithologists, geologists, historians and photographers. They make sure each and every adventure you go on is thoroughly taken care of, so your experience is always something to write home about. Whether you're looking for that perfect exposure setting for your money shot, or need to know the name of the bird staring at you from a rock outcrop, or would like a detailed history of the local area, you'll find someone to answer your questions and lend a hand. Get to know our professional expedition team members for the full story on board, on land and on ice.

As part of Silversea Expeditions, I've probed some of the most remote corners of the planet. But no destination has been more memorable and, in truth, more inspirational than Antarctica.

ZODIAC® CRUISING

There's nothing like listening to large sheets of ice break off a millennial glacier from a Zodiac, or catching sight of a great humpback whale as it spy hops vertically out of crystal clear waters to introduce itself. Our Expeditions Team members will get you close to the action, all you have to do is climb onboard.

GROUP HIKES

Get up close and personal with the stunning landscapes and teeming wildlife of Antarctica. Keep a lookout for unique fauna as you hike and, who knows, you might just make a new feathered friend as we introduce you to colonies of Adèlie Penguins, Chinstrap Penguins and Gentoo Penguins.

ACTIVE KAYAKING

Towering icebergs and humpback whales look great from afar, but there's nothing like floating alongside a glacier in total silence or having a curious leopard seal glide right beside you in the water. Under the guidance of certified kayak instructors you'll be able to experience this and much more.

ADVANCED LECTURES

Prepare for your onshore excursions with the best of the best as our expert naturalists, biologists, historians and geologists provide you with inside information on what to expect onshore and in the water. They'll pique your curiosity with captivating details about the land, water, ice and wildlife of this unusual continent.
